1. The doctor needs to pass a qualifying test called “**Kenntnisprüfung**” for converting their temporary medical license to the permanent medical practice license. The responsibility would lie with the doctor to pass this test on his own within a period of 18 months.
2. Aprobation application can only be given at the start of the observer-ship.
3. Minimum level of language proficiency for the medical language + observer-ship program would be B1. Accordingly, before you are joined for TELC B2 and TELC C1 level, you must pass the language test during your Masters program.
4. The prices mentioned are for as on today and the main cost of “Aprobation services” may change by 10% maximum since the same needs to be applied after 1 year.

- Opening the blocked account in favor of the student in Germany
- FOREX requirements at the time of departure

The students must apply at least 5-6 months prior to the intake for smooth admission process due to the Visa issuance process taking 3 months for Germany. Accordingly, for September intake, the last date for application would be March, 31<sup>st</sup> 2016. In special cases, we may accept the documents but may need to accept March intake for MHM in case process takes longer.

### **TRAVEL EXPENSES COVER (OPTIONAL):**

- Air Ticket from Metro city to Frankfurt
- Visa application and documentations including embassy charges
- Landing arrangements for Airport Pick up & Drop to hostel / apartment.

The offer letter for MHM program would be generated after the skype interview conducted with the student. The student would have to remit confirmatory amount (*as per the offer letter*) towards the acceptance of the offer letter to the university in order to get the final unconditional admission letter which is quite necessary for Visa process.

above 85 for Germany. In case of Visa application rejection, MOKSH would return 50% of the amount after deduction of the application fees.

- The confirmation of observer-ship may be delayed due to any situation. It may so happen that the confirmation comes after the commencement of Masters Program in Health management. This is mainly due to the basic requirement of B1 as the entry point for Observer-ship and many of the hospitals wish to see the certificate before handing over the confirmation. Accordingly, it would be issued during your study period of Master program, while you are clearing the language test.
