GERMAN BENEFITS

Germany is the strongest economy of Europe and is able to allocate huge funds to the healthcare sector for their non growing population. The quality of life is one of the best among European countries. They have allocated 10% reserved PG seats for international medical graduates. Germany recognizes MCI approved degrees and licenses making it easier for the Indian doctors to have a transition from India to Germany.

Further, learning German language is far more easier for Indians who studied in English since the alphabets are same. It is widely believed that German language is also based upon "Sanskrit" making it even easier for the Indian doctors to adapt!

ELIGIBILITY

Indian MBBS degree is equivalent to 2nd step of a German medical education having 3 steps. The 3rd remaining step is that of an "Observership" in a German hospital. Accordingly, any Indian doctor who have completed MBBS in India or other countries would have to go through this last step to get German Medical License.

In order to get into Observership, the basic language proficiency level is B1. Accordingly, we advise all Indian doctors to complete B1 level in India and then proceed for Germany. One can complete A2 level and go to Germany and attend B1 level there which is more preferable since it would give time to settle down in Germany and catch the local accents.
