

About University

Taras Shevchenko National University of Kyiv is today a classic university with a distinct research profile, and the leading contemporary academic and educational hub of Ukraine. With the independent Ukrainian nation arising, the University is facing new challenges and responsibilities. The academic experts of the future can be identified by a thorough professional knowledge and the ability to think creatively, with an understanding of the massive responsibility to be taken when working at the leading-edge of academic thought. Only a university with a long tradition of achievement and success both in teaching and in research could cope with such a mission.

Student accommodation is provided by a campus with comfortable halls of residence, computer clubs, sports facilities, cafeterias and dance halls. To promote a healthy lifestyle, the University has both health spa and sports facilities on the banks of the river Dnipro. The University of Kyiv has become more proactive in the foreign citizens recruitment process.
